SHORT HISTORY OF CEMBA

In 1991, the Canadian Management Centre was established at the Warsaw School of Economics. In 1995, as the Canadian MBA Office, it launched the Executive Master of Business Administration (CEMBA) studies. They were (and still are) geared to working professionals: entrepreneurs, managers, CEO's. MBA studies conducted in the time period between 1995-2000, as a result of co-operation of two Canadian universities (University of Calgary and University of Quebec at Montreal), were sponsored by the Canadian International Development Agency (CIDA). Up to the end of the

year 2000, more than 180 students finished their studies. In September 2000, on the basis of the agreement between the Warsaw School of Economics and the ESG - University of Quebec at Montreal (ESG - UQAM), a subsequent edition of the MBA program was launched. The first group of 40 students started classes in September 2000. Students start classes at the beginning of November every year. Since CEMBA's inception in 1995/1996, 850 students in 29 cohorts have graduated from the CEMBA programme.

Since March 2017 Canadian Executive MBA is AMBA Accredited Program.

TOP TIPS FOR STARTING CEMBA

1

BE ORGANIZED AND PLAN

During your MBA studies you will have a lot of new tasks to do every day (homeworks, readings, exam preparations). Therefore, you have to get clear day schedule

2

LEARN TO LEARN

CEMBA is a very demanding and intensive program. Thus, you have to check when your learning is most effective. Remember to treat pre-readings and homeworks seriously, they are an important part of your final exam

3

ASK QUESTIONS AND ENJOY

If you don't know something, don't hesitate to ask your lecturers or class mates. The discussion and networking part is a key element of your MBA. Enjoy the time spent with your new class mates, who are from the different branches and have different experience

4

KEEP CALM

If you fail your exam, you have the right to take a remedial exam. You may take a break from your studies. You may always call your program manager who will try to find a way out even from the hardest situation.

5

SUPPORTIVE ENVIRONMENT

Make sure to surround yourself with a supportive environment eg. family or friends who would be able to have your back on your way to complete the studies
